DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: .

Species I: claims 32-51, direct to a multi channel filtering system having a front-end multi-pole, multi-throw switch and back-end multi-pole, multi-throw switch.

Species II: claims 52-59, direct to a multi channel system having a front-end multi-throw switch and back-end multi-throw switch.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are generic claim.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. During a telephone conversation with Attorney Soyeon Laub (Reg. No. 39,266) on July 27, 2007, a provisional election was made without traverse to prosecute the invention of Group I, claims 32-51. Claims 52-59 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Examiner's Amendment

7. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

8. Authorization for this examiner's amendment was given in a telephone interview with Attorney Soyeon Laub (Reg. No. 39,266) on July 27, 2007.

The application has been amended as follows:

Claims 52-59 have been canceled.

Allowable Subject Matter

9. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 32 and 41, none of the prior arts of record, in combination or individual, show or make it obvious the circuitry configuration of a multi-channel filtering system having a front-end multi-pole, multi-throw switch and a back-end multi-pole, multi-throw switch, and a plurality of filter interposed between the front-end and back switches, wherein the front-end receive pole is switchably coupled to one of the plurality of front-end throws and the front-end transmit pole is switchably coupled to one of the plurality of front-end throws, the back-end receive pole is switchably coupled to one of the plurality of back-end throws and the back-end transmit pole is switchably coupled to one of the plurality of back-end throws, and wherein each of the plurality of filters having a first port coupled to one of the plurality of front-end throws and a second port coupled to one of the plurality of back-end throws. Claims 33-40 and 42-51 are dependent claims, respectively.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
